

A Symbol of Quality

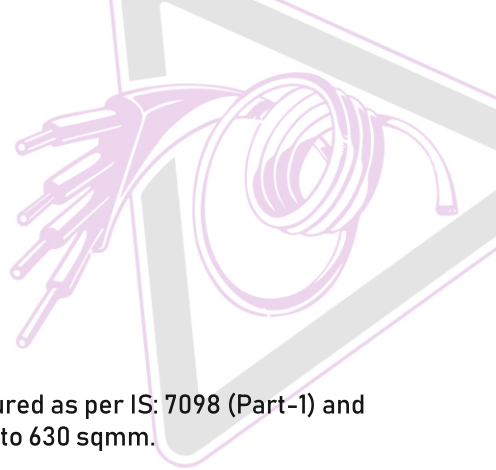

PARAFLEX[®]

WIRES & CABLES

SINCE 1974

Brand of India, Pride of India

PRODUCT RANGE

LT XLPE/PVC POWER CABLES (upto 1.1 KV)

Paraflex XLPE cables with Aluminium & Copper Conductor manufactured as per IS: 7098 (Part-1) and IS: 1554 of product range, single core upto 1000 sqmm & Multi cores upto 630 sqmm.

COPPER CONTROL CABLES

Paraflex control cables with Copper conductor (solid/stranded) manufactured as per IS: 1554 and IS: 7098 (Part-1) upto 100 cores.

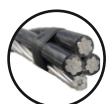

FR/FRLS INSULATED WIRES

Flame retardant Low Smoke and FR PVC insulated ISI marked wires meet the requirement of IS: 694:2010 Single core upto 1000 sqmm & Multicore up to 300 sqmm.

ZHFR INSULATED WIRES

Specially formulated halogen free flame retardant compound, which are composed of polymers on the basis of pure hydrocarbons are used for insulation Single core upto 630 sqmm.

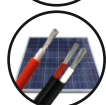

ARIEL BUNCHED CABLES

Paraflex Ariel Bunched cables with aluminum conductor manufactured as per IS: 14255 up to 95 sqmm.

SUBMERSIBLE CABLES

Submersible cables with flexible Copper conductor manufactured as per IS: 694 upto 95 sqmm.

PHOTOVOLTIAIC (SOLAR) CABLES

Solar DC cables from array junction box to main junction box & MJB to inverter (as per TUV Specifications-2 Pfg 1169/08.2007)

CO AXIAL CABLE

Range-RG-59F, RG 6 F, RG 6 CCS polyethylene foam insulation, composite Al coil laminated and Al-alloy braided for low attenuation with minimum structured return loss under extreme weather conditioned to give excellent signal quality giving clear reception on higher bandwidth covering more than 100 channels.

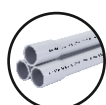

ELECTRICAL INSULATION TAPE (FR)

All regular/customized size available, Reliable self-extinguishing electrical insulation tape, Insulation & protection to wire of electrical appliances & machines.

Multicore Round FR PVC Insulated Copper Conductor (Sheathed) Flexible Cables, 1100 Volt

We manufacture and supply premium quality multi core Flexible cables with copper conductor for various industrial and domestic applications like electrically operated Machines & Equipment's (eg. Air-Conditioners/ Refrigerators/ motors etc.) Special formulated "Polyvinyl Chloride" (PVC) used for insulation and sheath tends to flexibility of cables.

PVC Conduit Pipe (IS:9537)

We manufacture high quality Conduit Pipe wrinkle free bending assures smooth passing of wire. Smooth surface finish for enhanced aesthetics, Corrosion proof finish offers complete protection from rust, salinity and humidity, Self extinguishing PVC materials offers added flame resistance.

OUR COMPANY

'PARAFLEX' a product of an ISO 9001:2015 Certified Company and is considered to be one of the fastest growing Company in the Indian Cable industry. Our competitive edge lies in the product innovation, superior quality and easy availability. Our company has a vast experience (approx 40years). PARAFLEX is certified by BIS, ISO, NSIC, SSI.

Complete Raw material is produced in our in-house plant Paraflex GTP approved By NTPC, PCCL, GTA ,DVVNL,AVVNL,HPCL, INDIAN RAILWAYS, JBVNL,JUSNL, TSECL,APEPDCL.

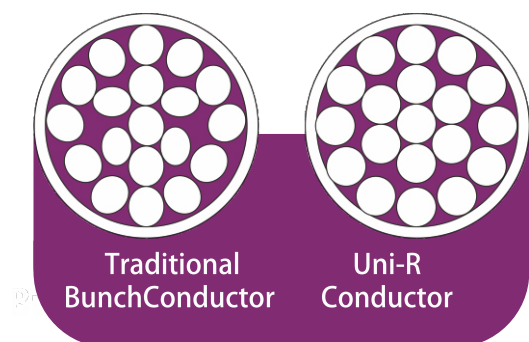

Customer satisfaction is prime objective. Service and dedication towards customers, has earned the company its distinguished clientele from all sectors like real estate to contractors; steel & metal to oil & natural gas companies; cement & chemical to atomic energy & nuclear power, construction to epc contractors an so on.our material is supplied states like, Himachal, Punjab, Haryana, Delhi, Jammu & Kashmir, Uttar Pradesh,uttarakhand,rajasthan, Bihar, Jharkhand, West Bengal, Maharashtra, M.P., Chhattisgarh, Goa, Assam, Orrisa, Andhra Pradesh, Himachal Pradesh.

THE QUALITY PRODUCT

Presenting PARAFLEX wires & cables made from finest material & tested to and exacting standard defines quality that stands our product different from market. The cable is BIS marked & approved by various departments with having ISO 9001:2015 company. PARAFLEX cables is supplied to various government departments like N.T.P.C., UP Housing Board, Etc.

OUR SPECIALTY

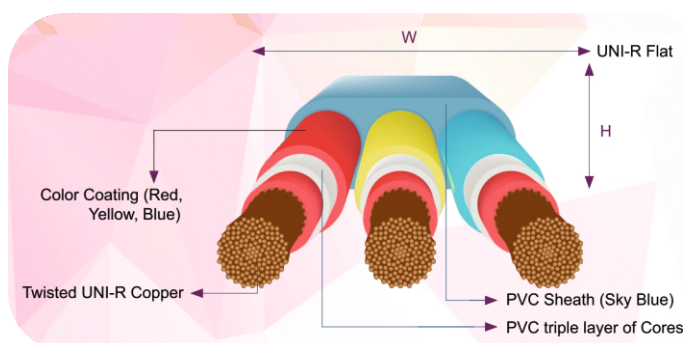

Multistrand is triple twisted with triple layer PVC.
Submersible is triple twisted.
Use of unique bunched copper.
First manufacture in India.
First priority is to maintain quality product.
Best quality equipments in laboratory.
Experienced technician & staff.
Fast delivery on time.

OUR INVENTION

We have Bring the revolutionary change in Indian market to present the unique product which is UNIR , Multistrand triple twisted copper with triple layer PVC, Submersible flat cable triple twisted copper with the High-Class PVC

First Manufacture in India

SIZE	TRADITIONAL	UNI-R WIRE
Nominal Area of Conductor sq. mm	Current Carrying Capacity	Current Carrying Capacity Rating Amps
0.75	6	10
1.0	11	16
1.5	13	24
2.5	18	35
4.0	24	48
6.0	31	70

PARAFLEX is one of India's leading company that manufactures premium quality wires and cables with using latest technology for wire manufacturing. We give particular attention to electrical safety and consumer satisfaction.

Across the highlighted geographies,
PARAFLEX has provided wire and cables.

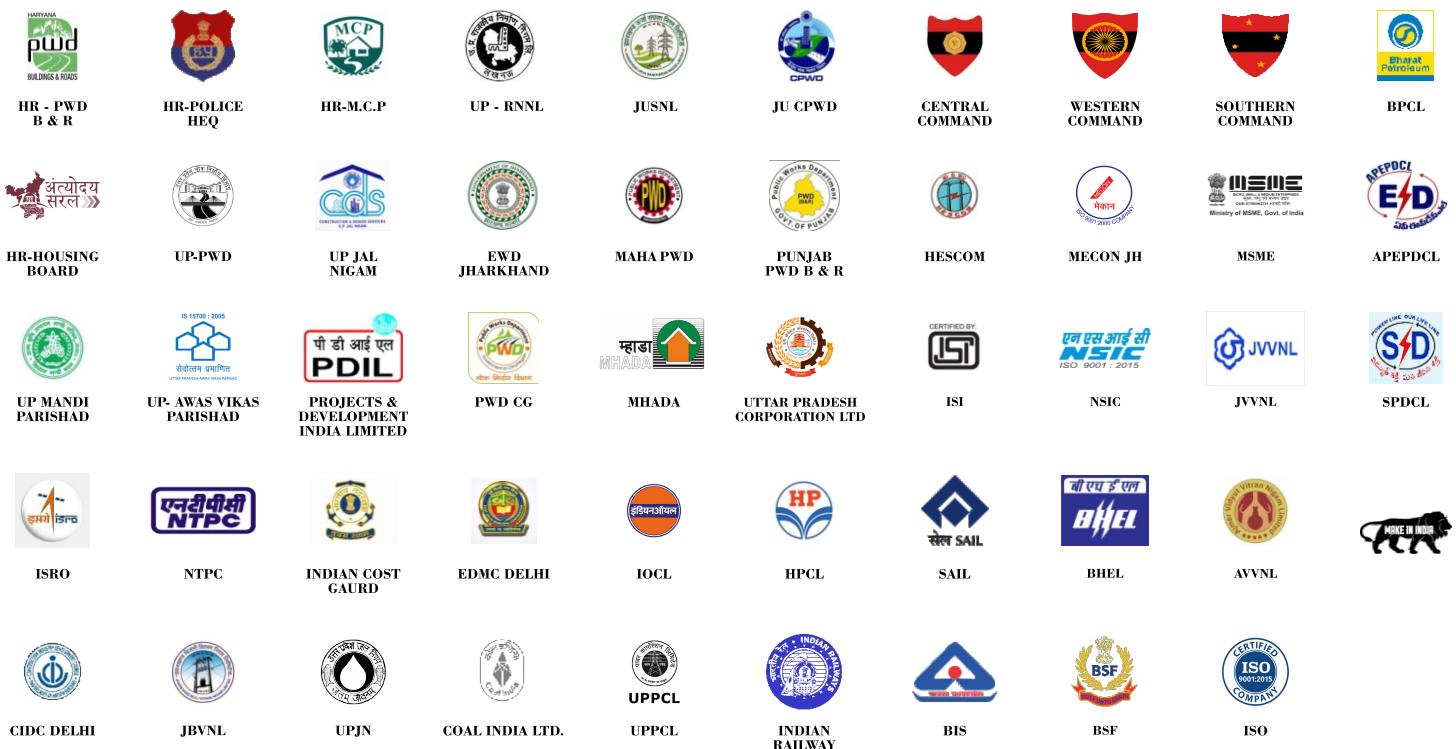

HEADOFFICE
